## FAQs

### ECO 1 GREEN – 65% Paper Pulp/33% ENSO RESTORE™ PET Barrier

**1. Why Paper Water Bottle in the first place?**

Ideally, all used plastic would be recycled. However, not even all of what is collected is actually recycled. Much of it ends up in the landfill as well. The ECO 1 GREEN Bottle from Paper Water Bottle™ solves that problem by being Landfill Biodegradable.

**2. What does the term Landfill Biodegradable mean?**

When plastic (or any other material) degrades from the action of naturally occurring microorganisms, such as bacteria, fungi and algae as found in all landfills. Biodegradation can occur in either aerobic (with oxygen) or anaerobic (without oxygen) environments.

**3. How long does it take to Decompose?**

[From ENSO Plastics website](#) ENSO RESTORE™ accelerates the natural biodegradation of plastics in biologically active landfills and anaerobic digesters as validated by independent certified laboratories using ASTM International test methods. Independent third party testing has shown up to 30.3% biodegradation in just 390 Days in landfill replicated testing (ASTM D5526).

**4. Is the whole Bottle recyclable?**

Yes...100%

**5. Is the whole Bottle landfill biodegradable?**

98% is...only the cap is not.

**6. What is the shelf life of the ECO 1 GREEN Bottle?**

At least 1 year, provided they are kept in a dry location.

**7. What is the shelf life of the Water in an ECO 1 GREEN filled Bottle?**

2 years. Our Bottlers date stamp the Fill Date and Expiration Date.

**8. Do you offer Branding/Labeling options?**

Absolutely. We offer Paper, Clear PLA and Direct Print. Please contact [sales@eco-techdirect.com](mailto:sales@eco-techdirect.com)

**9. What sizes are available currently?**

500ml

**10. Do you offer Turn-Key Solutions if I have a Brand but don't want to Manufacture or Fill?**

Yes. We can Fill, Label, Package, Warehouse and Ship your product while you concentrate on Branding and Marketing.

**11. What's next in the development of the Bottle?**

Paper Water Bottle's goal is 100% Backyard Compostable™. Next year – 2020 – is the goal.

**12. Can I get samples?**

Absolutely. Please go to [www.eco-techdirect.com](http://www.eco-techdirect.com) to order samples or standard carton quantities.
